

SLOTING MACHINE Model S315TGI

Features:

- Automatic tool stop;
- Adjustable speed of the double strokes per minute through mechanical variator;
- Digital readout for the double strokes per minute;
- Automatic cycle of the longitudinal feed from 0.01 to 0.3 mm/stroke.
- CE Norms

Technical characteristics			S 315 TG
Tool travel	mm		0-315
Strokes per minute	No.		17-60
Ram adjustment	mm		235
Swivel angle of the head	(°)		±45
Head to table distance	mm		510
Tool to column distance	mm		500
Worktable	mm		-
Diameter of the rotating table	mm		460
Number of the fixed positions of the rotating table	No.		24
Longitudinal travel of the worktable	mm		265
Cross travel of the worktable	mm		200
Self-breaking main motor	KW/HP		4.0kW/5.5HP
Net weight	kg		1310
Overall dimensions	mm		1000 x 1600 x 2250
On wooden skid	mm		1150 x 1800 x 2450
